

Michigan Turfgrass Environmental Stewardship 2004 Workshop Series

Simple changes to a golf course maintenance facility can often reduce environmental liability, increase compliance with environmental laws and protect natural resources.

Learn how your property “stacks up” next to the regulations and how to evaluate and prioritize actions that will reduce or eliminate environmental concerns at your facility.

Attend one of the workshops offered by the Michigan Turfgrass Environmental Stewardship Program to get the latest information on:

*** Pesticide Handling & Application * Equipment Washing * Fuel Storage * Shop Maintenance * Wellhead Protection * Emergency Response & Spill Prevention * Buffer Zones * Pesticide & Fertilizer Storage**

Workshop Dates and Locations

Workshops will be held from 9:00 a.m. until 3:00 p.m
